SUMMARY

As a full stack web developer student, have experience in building and deploying web applications, working with databases like MySQL and poses strong communication, organization, diagnostic and analytical skills. Always excited to leverage my skills and knowledge to contribute to a dynamic and innovative team.

TECHNICAL SKILLS

React, JavaScript,
MySQL, MongoDB,
C++, NodeJS,
HTML5, CSS, Linux,
AndroidSDK , DSA

CERTIFICATES

- Training in DP from Cipher School **Jan'23**
- DSA Self-Paced GFG **Jun'22**

POWER SKILLS

- Curious and creative
- Initiates conversation with others
- Imaginative and empathetic
- Empathetic and helpful in nature

TRAINING

Data Structures and Algorithm | GeeksForGeeks **Jun'22**

- Problem solving in c++
- Developed strategies to solve problem, easy solution design and find the time complexity of algorithm.

PROJECTS

Blood bank app **Jul'23**

A react application backend powered by NodeJS, express and mongoDB with implementing user authentication and added blood donation functionality.

Attendance Management System | Android Project **May'23**

Developed a android application using Kotlin and xml in android studio, Which incorporates a SQL database for efficient data management.

Expense Tracker **Apr'23**

Developed a react application where a user can take care about the product according to the date.

Tim sort visualization **Nov'22**

Developed a website wherein a user can visualize the Tim-sort and reverse-II algorithm using pure ES6.

ACHIEVEMENTS

- 500+ problem solved on Multiple coding platform.

EDUCATION

B.Tech. in Computer Science **Apr'20- Present**

Lovely Professional University | Phagwara, IN | CGPA 8.15

Higher Secondary **May '18 - Mar '19**

BMVP Sr. Sec. School Bushan
| Bhiwani, IN 80.5%
